

Method to add a new printer

Problems may happen during installation, please follow below steps to add a printer when you can not see driver icon shown on devices and printers

1、 Open devices and printers

2、 Click into [add printer], click [Add local printer] then [next]

3、 Choose LPT port as default ,then click [next]

4、 Install driver from Have Disk

5、 Browse C driver as below

6、 Find out file folder name POS PRINTER DRIVER in My Computer C: driver

7、 Choose a right system, 32-bit or 64-bit

8、 Choose INF file

9、 Choose [OK]

10、 Choose a corresponding printer type, then click [next]

- 11、 Click [next]

- 12、 Choose "Install this driver software anyway"

13、 Click [next]

14、 Click [Finish]

15 Click and chose printer properties

16 Choose a corresponding port, then click [Apply]

15、 Click [General], start testing and click [Print Test Page]

*Once you could print test page, said that driver installed successfully*

*Congratulations and thank you!*
